### Information Disclosure Statement

Commissioner for Patents  
Washington, D.C. 20231

Sir:

Listed on accompanying Form PTO-1449 are documents that may be considered material to the examination of this application, in compliance with the duty of disclosure requirements of 37 C.F.R. §§ 1.56, 1.97 and 1.98. A copy of each document is provided.

In accordance with 37 C.F.R. § 1.98(a)(3), Applicants' undersigned representative submits the following, in regards to non-English language document AL1 cited on Form PTO 1449:

Document AL1, European Patent No. EP 0 263 740, is in the French language. An English language abstract of document AL1 is attached as document AT7.

The Examiner's attention is directed to the following co-pending U.S. Patent Applications which are directed to related technical subject matter: U.S. Patent Application No. 09/380,203, filed April 25, 2000; U.S. Patent Application No. 09/964,678, filed September 28, 2001; U.S. Patent Application No. 09/964,666, filed September 28, 2001;

and U.S. Patent Application No. 09/964,667, filed September 28, 2001. The specifications of these applications are identical to one another, and are therefore "substantially cumulative." Accordingly, pursuant to 37 CFR § 1.98(c), a single copy of this specification is submitted herewith as document AS8. The claims currently pending from US patent application Nos. 09/380,203, 09/964,678, 09/964,666, and 09/964,667 are additionally submitted herewith as documents AT8, AR9, AS9 and AT9, respectively.

Where the publication date of a listed document does not provide a month of publication, the year of publication of the listed document is sufficiently earlier than the effective U.S. filing date and any foreign priority date so that the month of publication is not in issue. Applicants have listed publication dates on the attached PTO-1449 based on information presently available to the undersigned. However, the listed publication dates should not be construed as an admission that the information was actually published on the date indicated.

Applicants reserve the right to establish the patentability of the claimed invention over any of the information provided herewith, and/or to prove that this information may not be prior art, and/or to prove that this information may not be enabling for the teachings purportedly offered.

This statement should not be construed as a representation that a search has been made, or that information more material to the examination of the present patent application does not exist. The Examiner is specifically requested not to rely solely on the material submitted herewith.

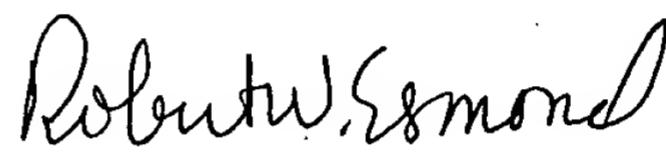

This Information Disclosure Statement is being filed before the mailing date of a first Office Action on the merits. No statement or fee is required.

It is respectfully requested that the Examiner initial and return a copy of the enclosed PTO-1449, and indicate in the official file wrapper of this patent application that the documents have been considered.

The U.S. Patent and Trademark Office is hereby authorized to charge any fee deficiency, or credit any overpayment, to our Deposit Account No. 19-0036.

Respectfully submitted,
